www.basale.at

Dear Ladies and Gentlemen!

Unfortunately, the congress in May 2020 had to be postponed due to the worldwide pandemic.

After a long wait, we are happy to announce that the new date for our congress has been set for September 09 and 10, 2021.

We are pleased to invite you to the Interdisciplinary and International Congress Basal Stimulation according to Prof. Dr. Fröhlich® in Graz.

Life is Learning - Support Services from the Beginning to the End of Life

Basal stimulation can offer support in learning in all phases of life. In this sense, the questions arise, how much and what kind of support is needed for the person concerned and also for the carer / caregiver? What framework conditions are necessary so that this concept can be made perceptible and is applicable to everyday life?

We were able to win international as well as interdisciplinary speakers from nursing, pedagogy and therapy on these issues and look forward to exploring and sharing with you thoughts, suggestions, reflections on the topic.

On Thursday evening there is the possibility of a joint dinner. This will be musically framed by the "Scarecrowtales".

We, the "International Association of Basal Stimulation® e.V." and the organizing committee from Graz as well as all speakers are looking forward to welcoming you on Sept. 9th and 10th 2021 in Graz - at the Steiermarkhof.

Venue / Address:

Steiermarkhof – Graz, Ekkehard Hauer Str. 33, 8052 Graz

Important Amendments: Due to the pandemic regulation of the Steiermarkhof, the congress has to be limited to 150 participants - on site. For those who do not want/are not able to travel due to the pandemic, we offer ALL lectures online.
